Intermediate Urinary Tract Surgery

Wednesday 11 July 2018

Venue: School of Veterinary Medicine and Science, Loughborough LE12 5RD

CPD hours: 8

Fee: £595*

Speaker: Rob White BSc (Hons) BVetMed CertVA DSAS (Soft Tissue) DipECVS SFHEA FRCVS

This unique and comprehensive Veterinary Surgical Training Academy’s intermediate level course covers the basic and intermediate techniques of suturing and instrument handling when used to perform urinary tract surgery in small animals. It is a practical hands-on intensive one-day workshop covering the full range of commonly performed urinary tract procedures. These are fundamental techniques that all general small animal surgeons should know and be proficient to perform confidently and safely. During the workshop the techniques will be explained and demonstrated before each delegate is able to carry out the procedure themselves under close supervision. You can expect to carry out numerous fundamental surgical procedures during the day with emphasis on how each procedure can be performed in a reliable and safe manner.

*The course is priced at £500 for those who have attended the Veterinary Basic Surgical Skills Course
Basic External Skeletal Fixation

Monday 16 July 2018

Venue: School of Veterinary Medicine and Science, Loughborough LE12 5RD

CPD hours: 8

Fee: £595*

Speaker: Gareth Arthurs PGCertMedEd
MA VetMB CertVR CertSAS DSAS (Orth)
FHEA FRCVS

The course will cover the history and evolution of ESFs, systems currently available, and the individual components of an ESF frame. Delegates will learn the basic principle and rules of ESF application and how to correctly plan ESF management of a fracture. The opportunity to apply different types of ESF frames using bone models will be available, allowing delegates to appreciate what effect different frame configurations have on construct stiffness. All ESF constructs, including circular ESFs will be discussed, although the emphasis will be on linear ESFs.

*The course is priced at £500 for those who have attended the Veterinary Basic Surgical Skills Course
Basic Screws and Plates – Internal Fixation

Tuesday 17 July 2018

Venue: School of Veterinary Medicine and Science, Loughborough LE12 5RD

CPD hours: 8

Fee: £595*

Speaker: Gareth Arthurs PGCertMedEd MA VetMB CertVR CertSAS DSAS (Orth) FHEA FRCVS

This course is an introduction to fixation, with a focus on plates and screws. The implants will be introduced with an emphasis on how they work and why, as well as an introduction to the associated instrumentation. The principles of internal fixation will be covered, and how to ensure these rules are followed. Specifically, lag and position screws, and plating techniques including compression, neutralisation and bridging will be covered. The course will also include pre-operative planning of internal fixation, potential complications, and how to overcome them. The focus will be non-locking plates, although locking plates will be discussed.

*The course is priced at £500 for those who have attended the Veterinary Basic Surgical Skills Course
Intermediate Locking Plates

Wednesday 18 July 2018

Venue: School of Veterinary Medicine and Science, Loughborough LE12 5RD
CPD hours: 8
Fee: £595*

Speaker: Gareth Arthurs
PGCertMedEd MA VetMB CertVR
CertSAS DSAS (Orth) FHEA FRCVS

Do you want to know more about locking plates and when to use them properly? This one-day practical course will discuss the basic theory and practical skills related to the safe use of locking orthopaedic implants. Topics covered will include the differences between locking and non-locking screws and plates and their advantages and disadvantages over conventional implants. Discussion will focus on when it is appropriate, and not appropriate, to use a locking implant. The day will consist of a mix of theory sessions interspersed with plenty of hands-on practical time.

*The course is priced at £500 for those who have attended the Veterinary Basic Surgical Skills Course

Gareth Arthurs
PGCertMedEd MA VetMB CertVR
CertSAS DSAS (Orth) FHEA FRCVS

RCVS recognised specialist in small animal surgery (orthopaedics)

Gareth Arthurs is experienced in all aspects of small animal orthopaedic surgery and has been a recognised specialist since 2007. He works as a consultant faculty orthopaedic surgeon at UCDublin Vet Hospital, as a consultant with Veterinary Instrumentation and as Honorary Associate Professor at the University of Nottingham School of Veterinary Medicine and Science. He is currently Chairman of the British Veterinary Orthopaedic Association.
Intermediate Gastrointestinal Tract Surgery

Tuesday 4 September 2018

Venue: School of Veterinary Medicine and Science, Loughborough LE12 5RD

CPD hours: 8

Fee: £595*

Speaker: Rob White BSc (Hons) BVetMed CertVA DSAS (Soft Tissue) DipECVS SFHEA FRCVS

This unique and comprehensive Veterinary Surgical Training Academy’s intermediate level course covers the basic and intermediate techniques of suturing, instrument handling and stapling when used to perform gastrointestinal tract surgery in small animals. It is a practical hands-on intensive one-day workshop covering the full range of commonly performed gastric, small and large bowel procedures. These are fundamental techniques that all general small animal surgeons should know and be proficient to perform confidently and safely. During the workshop the techniques will be explained and demonstrated before each delegate is able to carry out the procedure themselves under close supervision. You can expect to carry out numerous fundamental surgical procedures during the day with emphasis on how each procedure can be performed in a reliable and safe manner.

*The course is priced at £500 for those who have attended the Veterinary Basic Surgical Skills Course

Following the launch of the Veterinary Surgical Training Academy (VSTA) in 2017, the University of Nottingham is proud to offer further basic and intermediate courses, at the purpose-built School of Veterinary Medicine and Science, Loughborough, Leicestershire. Our highly successful Veterinary Basic Surgical Skills course (VBSS) is fully subscribed for 2018, however, we will be offering further dates in 2019 for this flagship residential programme.

In addition to our Academy, we offer a wide range of seminar and practical CPD days, using the wealth of knowledge from School and Clinical Associate staff. We are pleased to be able to offer a selection of courses within a 3 for 2 offer – please contact us directly to secure these places and we will ensure that you are not charged for the cheapest course. This offer applies to your practice postcode – more than one member of staff may attend.

Our calendar for 2018 may be found at nottingham.ac.uk/vet/cpd – we offer a waiting list facility for those that are fully booked and will notify you of any further dates available.

If you have any questions or suggestions for new courses, please do not hesitate to contact me or my team.
