

Scrolling banners

How to...

You can add a rotating sequence of images and messaging to your Contensis pages. Typical use of these might be to highlight an event, encourage open day bookings or shout about an award.

Preparation

For each item in your rotation sequence, you'll need:

- title*
- sub text (optional)
- image*
 - ensure your images are already
- link text*
- link destination*

Instructions

You must add **at least one banner** in order to add the control to your page!

1. In edit mode of your page, place your cursor where you want the banner
2. Find */SharedResources/Razor/Rotating-Feature.cshtml* in the project explorer
3. Drag and drop **Rotating-Feature.cshtml** into your page (you'll instantly be prompted to add at least one banner)
4. Complete the details in the dialogue (maximum of five banners)

Attribute	Details
Height	<ul style="list-style-type: none">• defaults to 224px – set this to suit• try out a few options and test on multiple devices to check it looks good
Title	<ul style="list-style-type: none">• each banner must have a title• be clear and concise

	<ul style="list-style-type: none"> • force a breaking space in your title by using a tilde ~
Sub text	<ul style="list-style-type: none"> • additional text is optional • be clear and concise
Image	<ul style="list-style-type: none"> • dimensions are whatever works - but make sure each image in your sequence uses the same dimensions • main focal point must be on the right • if you want a portrait banner, upload portrait images • if you want a landscape banner, upload landscape images
Link text	<ul style="list-style-type: none"> • use strong verbs (eg learn more, explore life as a student, reserve your place, book on an open day) • not "click here"
Link destination	<ul style="list-style-type: none"> • browse for the CMS page you'd like to link to • or link to an external URL
Dark or light?	<ul style="list-style-type: none"> • add an overlay to increase contrast between your text and image • for dark images use "dark" • for light images use "light"

Rotation Feature Control
This control enables you to add one or more items to a rotating sequence. Max No. of items is three.

Feature height
For example, 335px
224px

Rotation items

Title
All titles are set as a Heading 2. Use a ~ to break words onto the next line (no space after the ~)

Text
Max 10 words

Choose an image
File format: JPG. Ensure ALL images in your sequence use the same dimensions.

CTA text
'Learn more' will be set as default

CTA destination
Link to an internal CMS page

External CTA destination URL
This will override any internal link set via the link option

Is your image dark or light?
An opaque layer will be added over your image and text colour tweaked to ensure legibility and contrast between text and image.

Dark
 Light

Additional styles
Use, keyline, for example, to add a border to your text - only use this on larger scale imagery. Please speak to the Web Team if you have a style request.

A minimum of 1 items can be added to the list, there is a maximum of 5 items

5. Save
6. Save and preview your page - how does your banner look?
